

I ILLINOIS

Big Ten Neuroscience Seminar Series

Monday, February 24, 2025
11 AM - 12 PM CST / 12 PM - 1 PM EST

Moderated by Martha Gillette, Director, Neuroscience Program, Cell and Developmental Biology Alumni Professor

"Signals from the Womb: How maternal viral infection mediates fetal microglia, macrophages, and cortical development."

Adrienne Antonson

Assistant Professor, Department of Animal Sciences
University of Illinois Urbana-Champaign

"Can you hear me now? Insights into the cortical mechanisms of auditory selective attention."

Howard Gritton

Assistant Professor, Department of Comparative Biosciences
University of Illinois Urbana-Champaign

Virtual on Zoom

**Hosted by the University of Illinois Urbana-Champaign
Neuroscience Program**
